Biarritz™ Pipeless™ Hydrotherapy Foot Spa

Through the use of innovative Pipeless™ technology, the Biarritz™ Whisper-Soft Pipeless™ Hydrotherapy Foot Spa System can be thoroughly and conveniently sanitized between uses. This technology effectively controls bacteria and micro-organism growth responsible for contamination issues prevalent in "piped" hydrotherapy equipment. In addition to its superior hygienic benefits, The Biarritz™ Foot Spa features Whisper-Soft Sound Technology greatly reducing water turbulence noise normally associated with standard piped systems. Biarritz™... a more relaxing and enjoyable experience for guests and therapists alike.

Sanitize in 4 Easy Steps
