#9310

# Rejuvalight II

This advanced light therapy system is proven-effective to visibly counteract aging and environmental photo-damage by normalizing the skin's cellular metabolism and increasing oxygenation. Additionally, Rejuvalight II light therapy provides immediate visible results by stimulating collagen and elastin production and effectively promoting a healthier, tighter, more rejuvenated complexion.

## TECHNICAL SPECIFICATIONS EQUIPMENT, MATERIALS & CONTROLS

**Item #:** 9310

**Material:**

Silver Ionized Aluminum, Transparent Protective LED Cover

**Dimensions:**

15.75" (40cm) L, 11" (28cm) W, 9.5" (24cm) H

**Weight:**

19.8 lbs (9 kg)

**Electrical Requirements:**

110v--230v, AC 50/60Hz

**Maximum Output:**

285W

**Medical:**

FDA Compliance/EMI/EMC

**Features:**

- 2 Probe Sizes
- 7 Preset Treatment Programs
- 3 Energy Levels
- Automatic Shut Off
- 20 Hours Operation on Battery

**Safety Standards:**

UL (USA), CUL (Canada), CE (Europe)

**Warranty:**

One Year Parts and Labor

Made in Italy
