

Daylight™ Technology Lamp

ULTRASLIM AND DELUXE MODELS

Ensure productivity that is painless with full spectrum Daylight™ technology lamps that offer large precision glass lenses with strong, powerful wattage, so therapists can work in comfort. The easily adjusted arm promises optimum flexibility and control, while the low heat bulbs create a safer and cooler environment for both therapists and clients. Money saving, the Daylight™ bulbs and tubes use 80% less energy and last 10 times longer.

NEW!

Innovative Features:

- Extra wide, large precision glass lens
- Powerful Daylight™ wattage
- Money saving with energy efficient bulbs & tubes
- Optimal flexibility
- Individual switches for complete light control
- Flicker-free electronic ballast for optimum, longer-lasting quality of light

Supplied with table clamp.
Stands sold separately.
